

## Closing - Capping Machine Type FV

Screw capping and/or press-on closing by the automatic rotary indexing machine. Integration into an existing conveyor system. With automatic cap-sorting for different caps.

### Technical Specifications

Positions:	Screw head with torque limitation
Capacity:	approx. 800 - 3.000 container/h
Applications:	<ul style="list-style-type: none"><li>● nearly all kinds of caps</li><li>● stainless steel execution for food use</li><li>● Container with spray pumps (optional execution)</li></ul>
Additional:	Collecting turn table
Control:	SPS electro-pneumatical
Power supply:	230/400 V
Air pressure:	6 bar
Advantages:	<ul style="list-style-type: none"><li>● easy adjustments</li><li>● easy operation</li><li>● easy maintenance</li><li>● flexible and easy to extend</li></ul>
Optional:	<ul style="list-style-type: none"><li>● Execution for Ex-areas according to ATEX-guides</li><li>● Rotary design with several screw heads</li></ul>
